Professional cleaning technique for a clean bakery ...

SRK W-7

- Six different wash programs
- Ten memory locations
- Shortest lead time 3.5 minutes
- Compact design
- No preparation, no wheel disassembling
- High cleaning efficiency up to 180 bar
- Easy to handle
- Low manpower
- Permanent reduction in unit costs
- Environmentally friendly
- Touch control panel
- Optimal cleaning efficiency

The SRK-W7 stands for intelligent cleaning technology. Six different cleaning programs and 10 memory locations provide effective and innovative solutions in the hygiene management of your production.

Instructions depending on the degree of pollution cleaning programs optimize the cleaning process. While in the first cleaning for black, „well branded oven racks“ an intensive program is selected; you will already be able to resort to normal or short

programs during the next cleaning cycle. This means reduction of cleaning agents, energy and water consumption. Cleaning the oven racks is thus always cheaper.

The SRK-W7 has a dynamic which other systems do not offer.

Insert rack - push start button - take out rack

Take advantage of our experience as a specialist
in the field of pastry finishing and invest in the bright future
of your business.
