

Model Code: NU102

HEAT STAMPER

●The Rheon Heat Stamper can be connected with the Rheon Cornucopia Encrusting Machine to do a secondary shaping of spherical or log shaped products by stamping and shaping them automatically. ●The products formed by Cornucopia are press molded into desired original molding patterns and shapes without flour, because the Heat Stamper has the heating system. ●The machine uses a sensor to recognize the product, which in turn activates the stamping mold. Therefore, even if you change the product pitch, accurately positioned stamping and shaping can be created. ●The stamping mold (forming section) can be changed based on the shape of products.

● Specifications

Model Code	NU102
Output	Max.50pc/min.
Total Length	736mm
Total Width	653mm
Total Height	1400mm
Weight	130kg
Electrical Capacity	0.16kW
Belt Speed	3m/min. - 30m/min.
Air	0.4MPa (120ℓ/min.)
Product Size	φ40 - φ80, Height 10mm- 35mm

● Dimensions

(Unit : mm)

Products

Pistachio Maamoul

Maamoul

By connecting the Rheon Cornucopia with the Heat Stamper, an automatic forming and shaping line for baked confectioneries can be designed.
